RUSSIANS DOUBT CZAR'S SINCERITY

Social Democrats Clamor For a Democratic Republic.

DISTRUST EXISTS AMONG PEOPLE

Great Excitement Exists All Over the Empire and the People Are Divided Into Two Factions—Serious Riots Occur at Odessa.

St. Petersburg, Nov. 2.—A light fall of snow covered the city with a white mantle during the night but this morning the weather is becoming cold and a drizzling rain helped to put a damper on the ardor of the crowds already exhausted by the delirium of yesterday. General Trepoff's warning to the manifestants that he will use energetic measures to prevent disorders coupled with the reappearance of patrols of horse and foot soldiers, also exhausted, received a rest, and the agitators experienced difficulty in again touching the proletariala.

The social-democrat leaders continue to declare that nothing but a democratic republic will suffice and are using every means in their power to keep up the enthusiasm and deceive the people into armed collisions with the troops. A score of big meetings are announced for today.

An official thanksgiving service is announced to take place at the Kasan Cathedral at 2 o'clock this afternoon.

The news from provinces shows that the whole empire must have been plunged into great excitement yesterday. Everywhere the announcement of the issuing of the manifesto granting Russia a constitution, aroused the people to a high pitch of enthusiasm but everywhere the populace was divided into two camps as in St. Petersburg, those who accepted the boon offered them with intense joy, and who are now denominated as loyalists, and the extreme radicals under the leadership of the students, social and revolutionary organizations, who used the opportunity to preach the complete overthrow of the government.

Clashes and sanguinary encounters occurred at many places. In some towns the mobs control and the alleys were forced to obey their demands for the political prisoners.

This was the case at Byslostok.

Cossacks were turned loos eand they began to beat the crowds. Attacks reported at Kishineff, Kieff and other places.

Serious Riots at Odessa.

Odessa, Nov. 1.—Noon.—Conflicts between Cossacks and studcats continues.

During the fighting between roughs and Jews in Dalnitskaya street last night 37 persons were killed and 81 seriously wounded were taken to the hospital.

The news that Russia had been granted a constitution contined to create enthusiasm until a late hour today. All work was suspended, and the streets were blocked with cheering crowds. At the town hall red flag demonstrations were charged by Cossacks, who caused their horses to trample on the people. The number of persons injured was small. There was considerable pillaging during the night on the outskirts of Odessa, which the students, who organized themselve into a city guard, tried to prevent.

A most serious clash took place at the university where students were mingling with the crowds. Cossacks charged, using their lances and their whips, killing ten and wounding 50 persons. The Cossacks also broke the windows of the buildings with their lances and some students driven in the door-yard and were whipped by the Cossacks and police. One of the students was beaten by 20 policemen. His jaw was broken. Another student was taken to the hospital, where it was showen that he had 140 whip stripes on his body.

Five Killed at Kieff.

Kieff, Nov. 2.—The populace attacked the town hall yesterday and eventually captured some ring leaders who were delivered to the crowd from the balcony when the Cossacks appeared. Some of the people inside the building were armed and a regular engagement followed, resulting in many being killed or wounded on both sides. The Cossacks finally routed the crowd and captured the building. After dark the Jewish quarter was sacked.

The bodies of five persons killed and 45 wounded people were removed from the town hall.

The Cossacks while passing the office of the Otkliki, a Liberal paper, fired three volleys at the building.

Crowds Storm Prison.

Minsk, Russia, Nov. 2.—Crowds in an attempt to storm the prison here yesterday were beaten off by Cossacks who fired several volleys at the mob. Many persons were killed or wounded and many more were beaten with the whips. The doctors' residences were transformed into hospitals.

AUTHOR DEFENDS HIS PLAY.

New York Police Suppress Mr. Shaw's Production.

New York, Nov. 2.—A cable dispatch to a morning paper from London says:

"Your correspondent yesterday interviewed George Bernard Shaw in reference to the suppression by the New York police of his play, "Mrs. Warren's Profession." Mr. Shaw said:

"'If Police Commissioner McAdoo has earned by his public services the confidence of the American people as a man of higher character and deeper insight into social needs, moral problems and greater concern for the good of the community than I, it is not for me to question his qualifications or to incite Mr. Daly to resist his authority. I have a certain reputation in the world which will not bealtered by Mr. McAdoo's conviction that I am a blackguard. The New York police have a certain reputation in the world and that also will not be altered by my conviction. I know my own business better than they do. I am extremely proud of having written the play. It has made me more friends than any other work of mine, especially among serious women. Mr. Daly offered to abide by the verdict of the New York press. For my own part, I could offer a jury of public-spirited women with experience in rescue work and slum life to any other jury whatever. They know how society makes vice by refusing to pay virtue decently."

SHALL CASTRO APOLOGIZE.

This is Question that Will Be Determined by Mediator.

Chicago, Nov. 2.—A dispatch to the Tribune from Washington says:

The next 24 hours will determine whether Castro shall apologize to France for the severance of relations with M. Taigny, the French charge d'affaires in Caracas, or whether the French fleet, assembling at Martinique shall be ordered to make demonstration in Venezuelan waters.

It is the confident expectation of the authorities here that a peaceful settlement of the dispute will be arranged.

Secretary Root has been acting in the role of mediator in a manner that has won the sympathy of Castro and the approval of the French government. He has induced France to tone down the terms of the demands which it made upon the Venezuelan president. When the difficulty is adjudged it is probable that M. Taigny will be granted a leave of absence but the French authorities will not approve an application for leave if there is in Venezuela a disposition to interpret his departure as a sign of weakness.

Senator Bacon Arrives Home.

Macon, Ga., Nov. 2.—Senator A. O. Bacon arrived here from his long trip abroad. He came direct from Washington, where he met his friends there and mingled with them three days. He comes in time for the session of the grand lodge, and has been warmly welcomed by the members of this body. His friends in the city also give him a warm reception and were highly pleased at his great improvement in health. He has practically regained his former good health and is in excellent spirits.

ONLY TWENTY-FOUR CASES NOW IN CITY

Two Deaths Occur But No New Cases Are Reported.

QUARANTINES ARE BEING RAISED

Arkansas Has Removed All Restrictions—Many Colleges and Private Schools Will Open This Week—Legal Holiday in Crescent City.

New Orleans, Nov. 2.—Up to noon today there were no new cases of yellow fever and two deaths.

With only 24 cases of yellow fever remaining here, and winter rapidly approaching, the transfer of the local health situation to the city, both is considered now to be the matter of only a very few days.

Orders for the withdrawal of more of the federal surgeons are expected today, there being still a number here who are practically unemployed. It is expected that Surgeon Richardson will remain to wind up the accounts after all but Dr. White have been sent away.

Quarantines continue to tumble, the removal of all restrictions by Arkansas following upon the lifting of the Monroe quarantine which will open a large section of orth Louisiana.

The fever has almost disappeared from Mississippi, and comparatively few counties in that state continue to mantain their original embargoes agaist the city of New Orleans.

Many colleges and private schools will open here and elsewhere in Louisiana, this week, including Tulane and Newcomb university, the State university at Baton Rouge, and the Industrial institution at Lafayette.

Dr. Corpul of the Marine hospital made an address to the citizens of Bunkie, La. Bunkie had some fever during the epidemic, but a scientific methods and management they succeeded in stamping it out. Dr. Corput told the citizens there that they ought to prosecute their scientific methods throughout the winter, freezing out the mosquitoes which might have escaped destruction, and the screening of all their cisterns before spring.

Dr. Green, of the Marine hospital, who went to Port Gibson, Miss., and did excellent work there arrived here today on his return to his post at Port Stanton. In recognition of his services the citizens and authorities of Port Gibson presented Dr. Greene with a handsome gold watch, chain and locket, suitably inscribed.

Now that the fever is considered to be virtually stamped out, immigration from Europe through this port will be resumed, and the federal authorities are making arrangements for the re-employing of 3,000 Italians, Austrians, Hungarians, Slavonians, Russians Lithuanians Poles and Germans.

The immigrants will go to the various fields of Louisiana and Mississippi to work.

Today is a legal holiday in New Orleans, and business was largely suspended, while thousands of people visited the cemeteries.

Heavy Travel to California.

Los Angeles, Cal., Nov. 2.—With baggage heaped up in great stacks and the number of pieces increasing with the arrival of every train, the passenger depots of railway lines in this city present a sight never before witnessed. The colonist rush from the east is at its height since Saturday, trains having been arriving in sections. The Santa Fe, which Friday had a total of 50 extra tourist cars bound to leave Chicago, today now has 75 for the same time, while 50 extra cars were due to leave Kansas City Sunday and Monday.

Damage Suits Are Dismissed.

Chicago, Nov. 2.—Judge Jesse Holdom today on the motion of the city attorney, dismissed 17 damage suits brought against the city of Chicago in connection with the Iroquois theater fire. Although the city is relieved of further responsibility, the suits still stand against the Iroquois theater company and the Klaw & Erlanger Amusement company.

SHOOTING RESULTS FATALLY.

Man Shoots Into House, the Fire Is Returned and He Is Killed.

Leesburg, Ga., Nov. 2.—At Phelima Ga., 9 miles from Leesburg, great excitement was created by a shooting affray in which J. L. Darby, who precipitated the trouble, was killed and three other people narrowly escaped with their lives.

Darby, who is said to have been drinking heavily, went to the residence of L. W. Mims and began shooting through the window of the house, narrowly missing Mr. Mims, his wife and W. C. Manning.

The two men rushed out of the house to investigate the sudden attack, when Darby fired first at Manning, wounding him in the leg, and next at Mims. Mims then opened fire on his assailant, and put four bullets through his head and breast, killing him instantly. He deeply regrets the killing and only acted to save his own life. The two men are reported to have been good friends.

Judge J. M. Hines went to Phelima and held a coroner's inquest. The verdict of the coroner's jury was justifiable homicide.

Darby leaves a widow and one child. He moved from Anderson recently to take charge of the depot at Phelima.

READY TO GREET THE PRINCE.

"Fighting Bob" Evans and His Battleships at Annapolis.

Annapolis, Md., Nov. 2.—The beginning of the gala week of the visit of Prince Louis of Battenburg and his fleet to these waters was marked this morning by the official visiting between Admiral Robley D. Evans, commanding officer of the North Atlantic fleet, the battleship division of which arrived here, and Admiral Sands, superintendent of the naval academy and between Admiral Evans and Governor Warfield, of Maryland. The fleet of battleships is now lying in the bay off Annapolis with the Maine, the flag ship, farthest to the north and the others strung out at intervals of about a quarter of a mile. There are also several small auxiliary vessels. The cruiser division under Admiral Brownson and the British fleet are expected Wednesday morning.

The assemblage of vessels will be by far the finest ever seen in these waters.

Prominent Minister Dead.

Cartersville, Ga., Nov. 2.—Rev. Dr. W. F. Quillian, pastor of the Methodist church at Dalton, and one of the most prominent members of the North Georgia conference, died at 1:50 o'clock this morning, at the residence of his daughter, Mrs. John W. Jones in this city. For some time Dr. Quillian had been declining in health and he had come here from Dalton in hopes of improvement from rest and a change, but the break down was too far gone. Dr. Quillian was a member of a family which has furnished the Methodists in Georgia perhaps more ministers than any other. He has been a member of the conference for 38 years.

Tennessee Railroad Changes Hands.

Nashville, Tenn., Nov. 2.—It was announced today that the Illinois Central and the Southern would come into possession of the Tennessee Cenetral on Jan. 1, the former to secure the western section and the latter the eastern. The Tennessee Central will, for the present, remain as now organized. Jesse M. Overton, of Nashville, is prominently mentioned for president to succed Mr. Van Harcum. President Spencer, of the Southern railway, will leave for Washington and President Fish and party, of the Illinois Central, will leave today. Both parties will be elaborately entertained at a banquet.

Five Firemen Injured.

Philadelpals, Nov. 2.—Five firemen were injured, three of them seriously, in a fire which today destroyed the warehouse of the J. M. Paxton, a large company of West Philadelphia. The firemen injured are John Farley, William Drake and James McLaughling. The men were on the third floor directing a stream of water down a hatchway when the railing gave way, precipitating them into the cellar. The loss is estimated at $50,000.

PENSACOLA SWEPT BY ANGRY FLAMES

Florida City Suffers Heavy Loss From Conflagration.

THE LOSS ESTIMATED AT $250,000

Many of the Finest Buildings in the City Are Reduced to Ashes—Osceola Club Quarters Were Destroyed—Several Have Narrow Escapes.

Pensacola, Fla., Nov. 2.—One of the most disastrous fires in the history of Pensacola occurred this morning when property valued at about $250,000 was destroyed.

The first estimate was $150,000, but this morning when the fire was extinguished after a fight of six hours by the firemen, it was conservatively estimated that the amount would easily reach the first figures named.

The fire broke out at 12:45 o'clock this morning in the principal block on Palafox street between Gardner and Romana streets. By 1:30 o'clock, when the fire was at its height, there was a loud explosion of powder and ammunition which blew out nearly the whole front of the block. In the property burned were the largest stores in the city, together with the Osceola club quarters.

The club quarters are a total loss, as well as a number of valuable relics which they contained.

The following large stores were destroyed:

Watson & Co., real estate; Sydney S. Kahn, drugs; F. B. Bruce, sporting goods; Mrs. Bowers, millinery; Hannah Bros., drugs; Louisville and Nashville railroad's city ticket office, Jacobi Bros., groceries; Charles H. Turner, plumbing; Mrs. B. M. Anderson, Jewelry.

The first named firm occupied a 3 story building, and the rest two stories.

The quarters of the Osceola club were the headquarters for all naval officers and was one of the oldest clubs in the south.

Three firemen during the early part of the fire were cut off while working on a gallery and for a time it was thought there was no escape for them as a ladder, the only means of escape was on fire, but through the heroic efforts of their companions, they were rescued.

The fire spread to several cottages, owing to the strong wind blowing, but these were soon under control with but few losses.

Chief Price, of the Mobile fire department, wired an offer of assistance by Mayor Bliss, but it was not needed.

The valient work of the firemen saved the adjoining buildings, as a high wind prevailed at the outbreak of the fire. Several firemen had narrow escapes from death from falling walls.

Can Beat Voting Machine.

Chicago, Nov. 2.—A dispatch to the Tribune from San Francisco says that the voting machine to be used at the coming municipal election on Nov. 7 was given a test yesterday before a committee representing the fusionists as it had been claimed that it was possible to beat the machine. A linotype operator on a newspaper showed that by placing a small rubber band in a certain place near the name of the fusion candidate for mayor, the machine would not register for the mayor, though it would for all the other candidates. An expert representing the machine company, and half a dozen newspaper men, were unable to make the machine register while the rubber band was in place.

Train Crushes Veteran to Death.

Kansas City, Mo., Nov. 2.—Colonel T. J. Jackson, chief staff of the Kansas Grand Army of the Republic, is dying at Asew hospital in this city, the result of an accident last night at the Union depot. Colonel Jackson attempted to board a moving train. He fell on his face and his right arm was severed by the wheels. His clothing then caught in the car tracks and his body was swung around so that the rear wheels cut off both legs below the knee.

THE LONG STAPLE COTTON GROWERS

Hold An Enthusiastic Meeting in the City of Alachua.

GREAT MANY GROWERS ATTEND

Adjourned to Meet at Valdosta, Ga., Where Organization Will be Perfected, November 23.—Growers Advised to Hold Their Crop.

There was a large attendance of the Sea Island cotton growers of the county present at the meeting held in the auditorium of the high school in Alachua Thursday and much enthusiasm manifested.

The object of the meeting was to organize an association to include every Sea Island cotton grower in the long staple belt of this portion of the South, to promote their best interests in marketing the product.

Hon. J. S. Dupuis of Alachua presided, and addresses were made by Hon. J. R. Williams and Col. J. B. Dell of this city. Both speakers made stirring addresses, and there was no lack of interest in the meeting. The general sentiment was to hold cotton for a better price, and the association will not accomplish any great good the present season, but there is a determination manifested by all present to do more work next year, and aid the grower in getting a reasonable price for his product.

There was no regular organization perfected, but a committee of five was chosen to make arrangements for a meeting to be held at Valdosta, Ga., November 23d, when officers will be chosen and the growers of Sea Island cotton from every State will be invited to be present.

A pleasant feature of the meeting, which will long be remembered by all present, was the barbecue dinner served by the people of Alachua, and the ladies are complimented for the excellence of the viands set before the large crowd, to which ample justice was done.

GUILTY OF EMBEZZLEMENT.

E. L. Williams, Colored, of Windsor Was so Proven.

In Judge Mason's court Thursday E. L. Williams, a 19-year-old colored chap of Windsor, was on trial charged with embezzling money from G. A. Byles of Windsor. Williams decided that he did not care for a jury trial, so the case was tried before Judge Mason.

When the case was opened and ready to proceed, the fellow was asked whether he would plead guilty or not guilty, he decided that he would plead guilty, and he was fined $80 and costs or three months' imprisonment.

As he did not have the necessary funds at hand, and before he was arrested seemed to be constitutionally indisposed to physical exertion, he will add another link to chain of county toilers.

Narrowly Escaped Death.

Sunday afternoon while Mr. and Mrs. B. O. Smith and two children were driving home from Otter Creek, when near J. L. Medlin & Co.'s lower still, the buggy struck a tree, throwing Mrs. Smith and baby out, and it is thought the wheel ran over the little one's head, says The Levy Times-Democrat of Bronson.

Mrs. Smith and the baby were carried to the home of W. C. Young, nearby, and Dr. Turner of Otter Creek sent for. At first it was feared both Mrs. Smith and the baby were seriously if not fatally injured, but the former was unhurt, except being severely shocked, and the baby while seriously bruised about the head, its injuries were pronounced by the doctor to be slight, though at first internal injuries were feared.

Mr. Smith was driving the Dr. Stokes horse, but the accident was due alone to carelessness. It was a narrow escape.

MOTHER AND CHILD.

Let the mother take Scott's Emulsion for the two; it never fails to benefit them both. One can eat for two, but nourishing two is a different thing. It calls for a degree of internal strength that the average woman lacks. People of luxury are not very strong by habit; overworked people are weak in some functions from exhaustion or their surroundings. Scott's Emulsion can be depended upon to overcome such conditions. It is a wonderful food for a mother and child.

SCOTT & BOWNE, 409 Pearl Street, New York.

GENTLEMEN OF ENGLAND.

How Their Claims Were Established In the Middle Ages.

A curious meeting was held in Lyons on Jan. 4, 1699. The royal commissioners solemnly sat in council to decide the question if lawyers and doctors could be regarded as gentlemen. It proved too hard a problem for the wise heads, and the doctors and lawyers themselves were summoned to prove their right to gentility. The matter was settled to the satisfaction of the professional parties.

In the middle ages of England heralds went through the counties to examine into the claims of landholders to be called gentlemen. There is in existence an interesting list of the disqualified, and one reads today the shame of a certain Thomas Robbins who failed to establish the title and was writ among the ignoble. Charles Anscote, a representative of one of the oldest families, is registered as "entitled to be styled a gentleman, although worth not more than £500."

Brooke, an old writer, has given the world his opinion of what constitutes a gentleman, and his definition has never been excelled:

"The character, or, rather, quality, of a gentleman does not in any degree depend on fashion or mode or state or opinion; neither does it change with customs, climates or ages. But, as the spirit of God alone can inspire it, so it is that quality of heart which is the same yesterday, today and forever."

Houses In Ceylon.

The natives of the interior of Ceylon finish walls and roof with a paste of slaked lime, gluten and alum, which glazes and is so durable that specimens three centuries old are now to be seen. In Sumatra the native women braid a coarse cloth of palm leaves for the edge and top of the roof. Many of the old Buddhist temples in India and Ceylon had roofs made out of cut stone blocks, hewed timber and split bamboo poles. Uneven planks—cut from the old and dead palm trees, seldom from living young trees—are much used in the Celebes and Philippines. Shark skins form the roofs for fishermen in the Andaman islands.

Hustling the Clergy.

A western newspaper man once connected with a journal in Denver was one day in conversation with his chief when a clerical looking gentleman entered the office.

"Sir," said he gravely, "I intend next Sunday to preach a sermon upon football, and it has occurred to me that an enterprising paper like yours would be pleased to have my manuscript. I have no doubt that any number of your readers would be glad to read it and"—

"All right, all right," interrupted the busy editor, "but you'll have to hustle it along. Get it in early—early, mind! Our sporting page is the first to close."—Harper's Weekly.

The Salt In the Ocean.

If the ocean did not have salt it would freeze somewhat more readily than it does now, but there would be no very marked difference. The ocean is prevented from freezing not so much by its salt as by its size and by its commotion. On account of its size large portions of it extend into warm climates at all seasons, and by reason of its great depth it is a vast storehouse of heat. Its currents distribute much warm water among the cold.—St. Nicholas.

LONG ENGAGEMENTS.

A Woman's Plan by Which to Bring About Happy Marriages.

Marriage is an institution of the state; therefore she should put it out of the bonds of possibility that people can marry each other in two days or a week. How many marriages would be broken off if the state required a three years' engagement before people are married? After all, if a woman wants to become a nun in two months, no convent in the world will accept her. She must be a novice for two or three years. During that time she has to make an examination of her conscience every day and to find out if she has a vocation for a nun. But women and men marry without the slightest preparation, without the slightest thought of the future, while Dame Nature laughs at her most odd pairings. She wants her world peopled. That is her part. The men and women who are ill suited to each other are not her affair.

Girls and boys at school should be taught to look upon marriage as the most beautiful, the happiest, the most desirable and the most possible thing in the world. Boys should be taught to keep their minds and their bodies pure for the state which they will probably enter and to have a sense of protection and loyalty to girls, and girls should be taught industry, self sacrifice and responsibility for the married state.—Mrs. T. P. O'Connor in Black and White.

THE FOUR AGES.

So Life Goes, Always Has Gone and Always Will Go.

Here are man's four views of time:

"You still have forty years to live," said the guardian spirit to the youth.

"It is a long, long time," the youth replied, "and I will do a great deal before it is past."

"You have thirty years yet to live," the guardian spirit said to the still young man.

"Well, that is quite awhile," was the reply. "Probably I cannot do all I had intended, but I will make quite a showing."

"You have twenty years to live," the spirit said to the middle aged man.

"Only twenty! Well, I suppose I will have to do the best I can in that length of time."

For the last time the guardian spirit appeared. "You yet have ten years left," he said to the rapidly aging man.

The man sighed. "But ten years," he whispered in reply. "And what can one do in those few days?"

And when the end had come the man looked backward and moaned, "I am leaving it nearly all undone!"

And so life goes, although youth will not believe it, and only old age fully realizes that it is so.—Philadelphia Inquirer.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid of Harmony, Me. "For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and $1.00; guaranteed at all drug stores. Trial bottles free.

A Broad Hint.

"Mamma," said a six-year-old girl, entering the sitting room one morning recently, "don't you want some candy?"

The mother was writing a letter. "Why, yes, dear," she replied. "Give me a piece."

"I ain't dot any," came from the child, "an' I ain't dot any nickel to dit none."

She got the nickel.—Kansas City Times.

Death of an Old Resident—A Large Rattlesnake Killed.

Waldo, Nov. 2.—Mr. Flagg has returned to Portsmouth, Va., taking one son with him and leaving the other with his grandparents, Mr. and Mrs. E. Renault.

Lizzie Pryor, an elderly and respected colored woman, has had her house much improved and painted

Mrs. L. M. Harris died and was buried in the city cemetery. Rev. D L. Brasning officiating. She was a resident here for twenty years and was eighty years old. She leaves a daughter, Mrs. James Raulerson, and a granddaughter, Mrs. Frank Jolly, and other relatives in Wisconsin. Her funeral was largely attended and the floral offerings were beautiful. Prof. Peckham presided at the piano, and Mrs. Blanche Strickland, Mrs. Ada Lang and Mrs. Merle Rice rendered three appropriate hymns, Mrs. Rice also singing a solo. The music was solemnly impressive. Mrs. Harris was a much respected citizen and has made her home for years with her son-in-law and daughter, Mr. and Mrs. James Raulerson. Her husband died here eighteen years ago, and they now rest together.

It was shot at several times with a pistol and missed, but a load from a shotgun fired by Doc Johns blew its head off. The strange thing about it is to see snakes in a "dry" town.

THE YELLOW FEVER

Will Soon be a Thing of the Past in Pensacola and New Orleans.

Pensacola, Nov. 2—No fever is reported at noon, and none is expected to develop, as the situation is extremely gratifying.

Tuesday's record in Pensacola was two new cases and no deaths. The situation is indeed pleasing.

At New Orleans.

New Orleans, Nov. 2.—Only 20 cases of fever remain here, and the repeal of the quarantine restrictions by Arkansas, following the lifting of the Monroe quarantine, will open a large section of North Louisiana. The fever has about disappeared from Mississippi and comparatively few counties in the State continue the original embargo against New Orleans.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." Stillings Appointed Public Printer.

Washington, Nov. 2.—The president has appointed Charles A. Stillings, of Boston, Mass., as public printer, to take effect today. Mr. Stillings is manager of the printers' board of trade of New York. The appointment of Mr. Stillings was not forecasted by any discussion of his candidacy for the place. The large printing systems of New York and Boston indorsed him as a practical printer and executive. He was strongly endorsed by Senator Crane. He is a son of General Stillings, who was adjutant general on the staff of the late Commander in Chief Blackmar, of the Grand Army of the Republic.

Best Liniment on Earth.

Henry D. Baldwin, Superintendent City Waterworks, Shullsburg, Wis., writes: "I have tried many kinds of liniments, but I have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and $1. Sold by W. W. Johnson.

VINOL'S RELIABILITY.

Prominent Physicians Join Our Local Druggist, W. M. Johnson, in Praising This Meritorious Preparation.

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver oil preparation known to medicine, and it is fast superseding all other forms of cod liver oil and emulsions.

This is because Vinol is guaranteed to contain in a concentrated form all of the medicinal, curative elements of cod liver oil, actually taken from fresh cods' livers, but without a drop of the useless, system-clogging oil to upset the stomach and retard its work.

Vinol is not a patent medicine, as everything in it is named on the label, and it can be seen that it is absolutely free from drugs and injurious ingredients.

A prominent physician writes: "I believe Vinol to be the most valuable cod liver oil preparation, the best body-builder, health-restorer, and strength-creator known to medicine today, and I should be very sorry to have to do without Vinol in my practice."

Our local druggist, Mr. W. M. Johnson, says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure.

"In the strongest manner we endorse and guarantee Vinol to create strength for old people, weak, sickly women and children, and after severe sickness, and to cure hacking coughs, chonic colds, all throat and bronchial troubles or return money if it fails." W. M. Johnson, Druggist.

Prominent Railroad Dead.

New York, Nov. 2.—Major General Byrne, railroad president, died last night while visiting the home of Jas. Clarke at Quaker Lodge, Larchmont, N. Y. For over 20 years Major Byrne was identified with the railroad operations of the late C. P. Hutington. In 1884 Major Byrne was appointed by Governor Hoadley, of Ohio, as flood commissioner to distribute money appropriated to relieve the distress occasioned by the Ohio valley flood. In 1896 Major Byrne organized the Democratic honest money league of America. He was born in Maryland in 1845.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute It is the best remedy for coughs and colds. J. W. McCollum & Co.

Rowell Retires from Active Business.

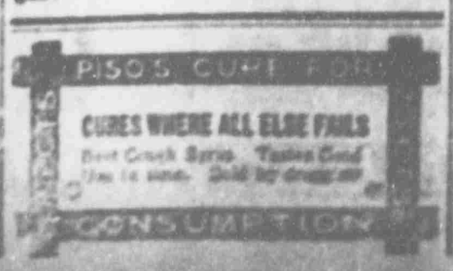
New York, Nov. 2.—A complimentary dinner was given last night to Geo. P. Rowell, the veteran advertising man, who has announced his retirement from active business. Addresses were made by many of Mr. Rowell's friends, including Frank B. Noyes, who spoke of him as "a publisher," and by Artemus Ward, who spoke of him as "the sage of Spruce street," and by H. B. Harding as "an American man." There were more than 200 guests at the dinner, among them Mr. Isaac Seligman and General Stewart L. Woodford.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Three Die in Explosion.

Hartford, Ark., Nov. 2.—An explosion occurred in the mines of the Central Coal and Coke company here early last night. Three shot-firers were killed. The dead are John Redyard, Harry Redyard, James Scott. The bodies were recovered this morning. The cause of the explosion is not known, but it is supposed to have been from gas.



MAY BUILD LARGE PLANTS.

Rumors Afloat that Birmingham Will Have Several New Industries.

Birmingham, Ala., Nov. 2.—Revived talk of the construction of additional big industrial plants has been occasioned here by the unprecedented activity of the iron market. Especially prevalent are the rumors that the Sloss-Sheffield Steel and Iron company will erect a steel plant, to take up the product of its iron furnaces and of its mines in the Birmingham district.

The reported acquisition by John Gates, of a controlling power in the stock of the Republic Iron and Steel company, also proves as a basis for the story that that company will erect a steel plant at Thomas, four miles from Birmingham. Mr. Gates, according to rumors received here, is endeavoring to gain control of the southern iron market, in order to offset the United States corporation.

Rumors of the proposed merger of the big companies continue active, but no definite grounds for them have been reached as yet.

Sluggish Liver a Foe to Ambition.

You cannot accomplish very much if your liver is inactive, as you feel dull, your eyes are heavy and slight exertion exhausts you. Orino Laxative Fruit Syrup stimulates the liver and bowels and makes you feel bright and active. Orino Laxative Fruit Syrup does not nauseate or gripe and very pleasant to take. Orino is more effective than pills or ordinary cathartics. Refuse substitutes. J. W. McCollum & Co.

MASTER'S SALE.

Under and by virture of a decree of foreclosure of mortgage made and rendered on the 31st day of May, A. D. 1905, by the Judge of the Eighth Judicial Circuit of Florida, in and for Alachua county, in a certain chancery suit therein pending wherein Carrie Williams and J. A. Williams, her husband, are complainants, and J. J. Burton and S. F. Burton, his wife, are defendants, I, as Special Master in Chancery appointed for the purpose, will sell at public auction for cash to the highest bidder in the City of Gainesville, before the court house door of said county, on Monday, the 4th day of December, A. D. 1905, between the legal hours of sale, the following tracts of land lying and being in the said county of Alachua and State of Florida and described as follows: A tract being a part of Lot 12, on a map of the South half of Section 32, Township 9 South, Range 20 East, recorded on page 203 of Deed Book "K" in the office of the Clerk of the Circuit Court of Alachua county, Florida, and beginning at a stake 660 feet West of the Southeast corner of said Lot 12 and running North 236¼ feet, thence West 140 feet, thence South 236¼ feet, thence East 140 feet to beginning.

Also a lot beginning at a stake 660 feet West of the Northeast corner of said Lot 12 and running West 140 feet, thence South 78¾ feet, thence East 140 feet, thence North 78¾ feet to beginning.

Also a lot beginning 800 feet West of the Southeast corner of said Lot 12 and running thence North 315 feet, thence West 140 feet, thence South 315 feet, thence East 140 feet to beginning. Together with all and singular the tenements, hereditaments and appurtenances to said tracts belonging or appertaining.

Said lands to be sold to satisfy said decree of foreclosure.

HORATIO DAVIS,
Special Master.

Keep Your Head Clear

And your stomach free from indigestion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

SUNSTROKES.

A man may not be a good hitter, but if he is an artful dodger he can take care of himself.—

The reason it is called civil service is said to be because it treats those thus employed in an uncivil manner.

When a man stops smoking to save the money he would spend for cigars, he will wonder where it goes to then.

When a man who has a little of the grey matter in his cranium is his head is hard to subdue, they say he is impudent.

This has been a good year for sugar beets. The crop of dead beats don't seem to be in any way disturbed by weather conditions.

The man who thinks he is indispensable ought to be allowed to look back on this earth after he is gone, to see how little he is missed.

The idea of putting the smallest man in college on the football team would not help matters, as they cannot control their temper like a big, good natured fellow.

Kipling, not being satisfied with inflicting a lot of his trash, called works, on the American public, now undertakes to hand them out an English roast. He has got more money out of Americans than he ever did over 'ome.

This amazing story comes from Indiana: At Williamsport, in that State, last week 200 husbands whose homes had fallen into neglect and discomfort owing to the idle and gadding habits of their wives, formed a procession, marched around to all the clubs and unions where the women were and complained loudly of their general worthlessness. The most surprising thing about this uprising is that many of the women were moved to confession and some of the organizations were disbanded on the spot.

A new idea as to the postal service was presented by a Kansan at the convention of railway mail clerks at Washington. He would have appointments to postoffices in the second and third class made from the list of railway mail clerks who have given long service and who have become incapable from further duty on the road. This would be very nice, but what would become of the politicians and the fellows at home who need these places?

Policy holders in the old line life insurance companies are becoming unduly alarmed, and are talking of sending in their policies to Tom Lawson. We believe there is not the slightest cause for giving up a policy to any one and that all policy holders are as secure as ever. The investigation now going on will not injure the stability of the companies that are being aired, but will be the means of much good.

Pensacola, after being scourged with yellow fever, has just been purged by fire. The people of the entire State will sympathize with our sister city in her affliction, and many throughout the State are giving more substantial sympathy in the way of small contributions to the fever sufferers. A small amount from each one in the State able to give will mean much to our afflicted neighbors.

TRANSPORTATION FACILITIES.

The transportation facilities offered to the farmers of Alachua county are worthy of consideration by all who contemplate locating here for the purpose of raising farm products for shipment or taking to the local markets. The Seaboard Air Line and the Atlantic Coast Line pass through the county and intersect at Gainesville, while the Gainesville & Gulf Railway runs through as rich a farming section as can be found in the State.

In several localities rock roads make it easy for the farmers to haul their produce to the stations for shipment, such stations being placed at short intervals along the three railroads. The highway improvements made each year are adding to these facilities, and in a few years we will have rock roads over the county that will equal those of the old settled sections of the North, where at frequent intervals the sand is a great obstruction to hauling farm produce to market, unless the roads are macadamized.

When a good rock road is once made the cost of keeping it in good repair is nominal, and the merchants of every town and city should take an interest in the work, as a farmer will patronize a dealer six miles away more readily, if he has good roads to travel, than he will half that distance when he has to travel over poor roads and ford streams, and take the chances of breaking down his vehicle while making the journey.

THE BOY CROP.

The Newton Mentor says "someone has figured out that the average boy who is dependent upon his parents for a livelihood until he reaches the age of 21 years, costs them $4,000. Upon this basis of calculation a brood for instance—six boys—will represent an outlay of $24,000 by the time they leave the home roost. The question naturally arises: Does it pay to raise boys, and are there no other crops that would be more profitable? If a boy turns out to be a cigarette fiend with a laugh that would make the wild untutored donkey feel perfectly at home in his society, and with an untrammeled and unconquerable desire to avoid work, it is safe to say the parents might have invested to better advantages. But if the boy grows up with the lesson well learned that wealth and success grow only on bushes by the sweat of the brow, the parents need not begrudge whatever they have spent on him, for he will be a source of increasing joy and pride to their hearts when they grow old and their hands tremble and their legs wabble and their steps are slow and faltering. They will then have two strong arms to lean upon."

OUR SCHOOLS.

There is no State in the Union that has a better school system than Florida has at present under the Buckman law. When the people understand it better they will appreciate this fact. In every city and town the schools have advanced in standing as if by magic, and with the deep interest manifested there will be an advance in scholarship all over the State that will be surprising inside of two years.

Where public schools have been quite dormant in years past, they are now reviving and the increased attendance shows that the people are satisfied with the new regime.

The educational interests of our State were never in a better condition, and if it is attributed to the Buckman bill we lift our hat to the framer of that measure.

The Florida people will soon have a number of homeseekers from the North to call on them. It depends on the people to make them feel at home. One year will convince them that Florida is the place.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

According to all custom Thanksgiving Day comes on the last Thursday in November, and the papers that will undertake to argue whether it is the first Thursday after the third Wednesday simply because the month came in on Wednesday, had better open up the question of the age of Ann, and not bother with Thanksgiving Day.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Bishops Congratulate President.

Washington, Nov. 2.—President Roosevelt was yesterday presented with a neatly framed testimonial inscribed on parchment which had been adopted by the college of bishops from Methodist Episcopal church which has just closed its semi-annual confernece here. Bishop Foss read the testimonial to the president, which congratulated him on his firm stand for civil righteousness and a "square deal" for everything which he termed a modern application of the golden rule in the executive affairs of a great nation. The president was also highly commended for his exaltation of the home and for the humane spirit which prompted him to be the first of all the world's rulers to endeavor to bring about peace between Russia and Japan. Mr. Roosevelt expressed his cordial appreciation of the tribunte paid him.

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women *are* nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

Tear Down AntiHearst Flag.

New York, Nov. 2.—A crowd numbering a thousand or more persons attacked and tore down an anti-Hearst banner in Union Square today. The banner was similar to the one put up in Park Row yesterday, and which was taken down last night by orders of Mayor McClellan, after a demonstration had been made by a large number in the city hall. Today a crowd gathered shortly after 12 o'clock and soon began an attack to tear down a red flag supported by a hand-labelled "Hearst." They succeeded in doing this, and then the police removed another flag, that of stars and stripes supported by a hand marked "McClellan." Underneath the two flags were the words "Under which flag."

Old Swedish Flag Hoisted.

Stockholm, Sweden, Nov. 2.—The old union flag was struck throughout Sweden this morning and the newe that the ensign be complimented by salutes, the ringing of church bells and parades of troops. In Stockholm the whole garrison paraded and most of the population thronged the streets. At 9 o'clock the flag flown by Sweden before the union with Norway, from church vessels. King Oscar witnessed the parade from the palace and tens of thousands of citizens gathered in the vicinity and demonstratively greeted him.

Missionaries Reported Murdered.

Hong Kong, Nov. 2.—Five American missionaries have, it is believed, been murdered at Lionchow. Details of the affair have not yet been received. Lion Chow is a town of 12,000 people, situated in the western portion of the province of Kwang Tung, at the head of the gulf of Tong King, not far from the treaty port of Pakhoi.

Worm Destroyer.

White's Cream Vermifuge not only kills worms, but removes the mucous and slime in which they build their nests; it brings, and quickly, a healthy condition of the body, where worms cannot exist. Sold by W. M. Johnson.

Tennessee Politician Dead.

Memphis, Tenn., Nov. 2.—Lewis Daltroff, a well known local politician, died suddenly today of heart failure. Daltroff was born in New Orleans and came to Memphis at an early age. He was regarded as one of the heroes in the yellow fever epidemic of 1878. He was a member of the Howard Relief association.

THE TEXAN RANGERS.

First Fight With Indians In Which Revolvers Were Used.

John Coffee Hays was reared on a farm in Wilson county, Tenn., being born there in 1817. At the age of eighteen he migrated to Texas, where, during the struggle of that Mexican province for independence, he served with distinction in the military campaign conducted by General Sam Houston, being noted for his bravery and strategy. After the termination of that conflict Hays was placed in command of the small regular force that was shortly afterward organized and became known to fame as the Texan rangers. Many were the desperate fights in which he was engaged with the fierce Comanches and border Indians, and innumerable were the perils which he encountered. He was the first to supply an armed force with Colt's revolvers for use in battle.

The Indian mode of warfare in those early days was to draw their enemy's fire and then sweep down upon them like a whirlwind, plying their bows and using their long spears with deadly effect. So cautious were they in this respect that they soon distinguished the double barreled gun when it was brought into use and only approached when they were sure that such weapons had been emptied. On the first occasion when Hays and his rangers, armed with the revolvers, met a band on the warpath they allowed their fire to be liberally drawn, and then the Indians charged with exultant cries, but when the revolver was brought into play at close quarters the panic that ensued was absolute and the destruction of the Indians complete. Hays was colonel of the First Texan regiment, the nucleus of which was formed of veteran rangers.

CEMETERY VAULTS.

The Building of Them Is a Profession In Itself.

The vault was the size of the usual cemetery vault—one small room, roofed, floored and walled with granite, an ordinary vault—and yet the undertaker said it had cost $25,000.

"But there is no carving on it," objected the man who thought of buying a lot. "It is as plain as a pipestem, and all the stone it contains could be bought for $10,000 or less."

"True, true," said the undertaker. And he pointed to another vault that might have been the first one's twin. "That only cost $15,000," he said, "a saving of $10,000, but the broker who bought it got abominably stuck.

"The cheap vault, you see, was built, as a house is, by an architect and an ordinary builder. It looks good. It will last for centuries. But, by Jove, it leaks like a sieve! After every storm it is flooded, and two of the cemetery attendants have to charge up a day's time against the owner for cleaning it out.

"Vault building is a profession in itself. To make for a vault a waterproof roof of enormous granite slabs is an art that only the vault builder understands. When the ordinary builder, no matter how proficient he may be, undertakes this task he fails lamentably. The vault leaks. After every storm its floor is flooded.

"Therefore, if ever you invest in a vault let a specialist erect it for you. He will charge you a good many thousands extra, but he will give you a good, satisfactory job."—New York Herald.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

Docile Ducks of the Chinese.

In China the duck is much esteemed as an article of diet, and what may be called duck farms are common on most of the rivers. The birds are taught to hunt for their food, and the rearing of them costs little. They are kept in boats with a platform or deck extending outward on each side. These boats are taken to the shallow, marshy parts by the banks of the streams, and the ducks are then driven ashore to enjoy themselves in the mud flats. So well are the birds trained that at a given signal they cease eating and follow their leader back into the boat, where they lie during the night. Ducks preserved by being salted are a favorite food with the well to do.

"I Thank the Lord!"

Cried Hannah Plant of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at all drug stores; 25c.

SHOT BY FAKE HIGHWAYMAN.

Boys at Play on Hallowe'en Night Accidentally Injured Companion.

Chicago, Nov. 2.—Hallowe'en proved serious in the residence of William Hood last night. Cleveland Hood, a 13-year-old son, was shot during a game of "hold up" by Frank Wright, a boy of the same age.

Young Hood was shot just above the heart. He was taken to the hospital, where an operation was performed, and it was reported that the outcome of the wound was in doubt.

The shooting was acidental. The revolver belonging to Mr. Hood, and the boys did not look to see if it was loaded. Henry Cannon and Harold Tully, two other boys, were dressed as girls, and a street scene was acted out, there the robber steps from a dark alley and cries "Hand up, or you are dead men!"

Wright was playing the part of the robber. Hood and the masquerading girls were the victims. All went well and Hood showed the proper amount of fright when he found himself looking into the muzzle of a revolver. As he was muttering out some fanciful stage talk, his fright became a reality for the "empty" revolver was discharged and the boy sank to the floor. Wright was taken to the police station, but was released later.

PHYSICIAN HAS BEEN LOCATED.

Boston Police Have Unraveled the Suit Case Mystery.

Boston, Nov. 2.—Just before leaving his office at police headquarters Chief Inspector A. B. Watts stated that the doctor who dismembered the body of Susanna A. Geary, the suit case victim, had been located. He did not expect, however, that any arrest would be made for a day or two, intimating that the police were awaiting something more definite from Norris Nathan, the lover of the girl.

The theory of the police regarding the whole affair, in which the most serious charge can only be manslaughter, is that Miss Geary went to a woman and submitted to an illegal operation. The operation was not a success, but before the girl died a male physician was called and he attempted to save the girl's life by a second operation for peritonitis. Miss Geary died, the doctor then dismembered the body and distributed portions of it in two suit cases, which were subsequently found. The charge against the woman can only be one of manslaughter, while, according to Superintendent Peirce, of the local force, it will be difficult to bring any charge against Nathan unless he should be accused of concealing a crime.

Neuralgia Pains.

Rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bones, and being absorbed into the blood its healing properties are conveyed to every part of the body, and effect some wonderful cures. 25c, 50c and $1. Sold by W. M. Johnson.

Indian Remedies.

The Indian pharmacopoeia comprised thoroughwort, spurge and Indian hemp, used as emetics; the bark of the horse chestnut and butternut, used as cathartics. They were also acquainted with many poisons, most of which were used on their weapons. For asthma they employed tobacco and sassafras, for coughs slippery elm, for dropsy the wild gooseberry, for wounds powdered puff balls. They treated boils with onion poultices.

Somewhat Different.

"This question whether a word should have its adverbial or its adjective form seems to me to have little to do with the sense. Now, what is the difference between talking loud and talking loudly?"

"No difference," replied the pedagogical friend. "But look here: For a large fee you give legal advice freely, but you don't give it free. I think that will retain you for awhile."

A Noncombatant.

"I didn't know you were in the choir. What's your position there?"

"Neutral."

"How do you mean?"

"I don't side with either faction."—Philadelphia Ledger.

FIDDLERS AND DRUMMERS.

The Two Classes of Insects That Produce Audible Sounds.

Insects that produce sounds audible to human ears have been roughly divided into two classes—fiddlers and drummers. The grasshopper is a fiddler and makes music by scraping its fore wings against the rows of spinelike teeth that ornament its thighs. The katydid also plays an entomological fiddle. It produces its notes by rubbing the inner side of the hind legs over the front wings.

The locust, on the other hand, is a drummer, and a loud one too. His drum is formed by a membrane situated at the base of the fore wing, and he can make a forest ring with it. The cicada, or seventeen year locust, carries a drum at the base of the abdomen and makes with it a noise that seems to be quite as terrifying in the insect world as that produced by the gorilla pounding its resounding chest is among wild beasts. It is said that the cicada sometimes frightens away its enemies with the rattle of its drum.

There are other drumming insects which make good music, but the violinists, after all, carry off the palm, for the great insect soloist, the cricket, is a fiddler.

The Month of August.

Few persons know why August has thirty-one days. July, which takes its name from Julius Caesar, has thirty-one days, and Augustus, who completed the calendar, declined to submit to the indignity of seeing his own month branded with the inferiority of one day less. The astronomers had accordingly to reshuffle the lunar cards, and, after some perplexity, hit upon the expedient of shearing twenty-four hours from February's glory in order that August might face the world on a footing of perfect equality with July.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavensworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

MAKING PIPE ORGANS.

Interesting Work That Is Done In the Voicing Room.

Both the metal and wooden pipes of a pipe organ are made on the selfsame principle of the willow whistles that every man made when he was a boy, and so, after all, a pipe organ, the mightiest musical instrument yet invented, is but the evolution of that primitive pipe of Pan, the willow whistle.

The most interesting place in an organ factory is the voicing room. Up to the time the pipes enter this room they are as dumb as broomsticks. Here the breath of life is breathed into them, and they are made to speak, each in the voice intended by its maker. Here the big fat pipes are taught to thunder out their diapason and those scarce the diameter of a slate pencil and one-half an inch long to utter their shrill whistle and others the thousands of varying tones between. And not only must the pipes of one stop speak correctly as individuals and members of their own particular family, but they must be in accord with all the hundreds of others in whose midst they are to live. To see that they do this is the work of a man whose ear is keen to the slightest variation and who must know why a pipe does not speak as it should and how to make it. One by one the pipes are set upon the wind chest standing here, with the bellows and all the internal mechanism of an organ properly adjusted and with a keyboard in front of him the voicer tests each one. By changing the size and shape of the aperture through which the wind passes he governs the tone until it is exactly what it should be, a task which only a man with the nicest sense of sound can accomplish.

DESKS OF FAMOUS MEN.

There Are Many of Them Scattered About the Country.

The desk of Salmon P. Chase, a plain piece of furniture made from mahogany, is in one of the rooms of the treasury department at Washington. There are many of these old desks scattered about the country, their chief claim to interest being that once some well known man leaned over them.

Alexander Hamilton's traveling desk, made of mahogany and measuring 12 by 16 inches and 10 inches high, is an interesting object. Upon this desk was written much of his literary work, and the worn green baize with which it is lined attests to the use to which it was put. There is a drawer in one side and several compartments for pens and ink, while upon the top is inlaid a silver plate with the name "General Alexander Hamilton" engraved upon it. Within the top is a strip of parchment which says, "Given by Mrs. General Schuyler to her daughter, Mrs. General A. Hamilton." No doubt the convenient size was what recommended it to the general.

Nathaniel Hawthorne's desk is preserved at the custom house, Salem, Mass. A desk at which he wrote some of his inimitable romances was just a board standing out from the wall at an angle. This is still in the tower room at Wayside, his home at Concord, Mass. Victor Hugo had in his Guernsey house a study built almost entirely of glass and perched upon the roof. Like Hawthorne, he, too, stood at his writing, and his desk was a mere shelf fastened by hinges to the wall.—Delineator.

Origin of a Phrase.

Many years ago the wild deer that roamed through the forests of England used to dig holes in the earth with their forefeet. They pawed it out sometimes to the depth of several inches, sometimes a foot or more. These holes were called "scrapes," and travelers at dusk or night or those who were careless about their footing often tumbled into them. They were laughed at for their heedlessness when they came home covered with mud, and, as this frequently occurred after they had been imbibing a bit, they were said to have "got into a scrape." Some Cambridge students took up this expression, and thus it came to be applied to people who had got into difficulties of various sorts.

Cooked Under Water.

In 1766 one James Austin laid a wager of $500 that he would cook a plum pudding ten feet beneath the surface of the Thames near Rotherhithe. The bet was readily accepted, and many people flocked to the appointed locale to watch this strange exhibition of the culinary art. Inclosed in a tin pan in the center of a sack of lime the pudding was lowered beneath the water, where for two hours and a half it remained. It was then taken up and partaken of by a committee, who declared that Austin had won his wager, the pudding being, if anything, overdone.

And Her Money.

"Yes, I was sorry to see Jack Goodley married to Miss Boxley."

"Sorry! For his sake or hers?"

"For mine. I wanted her."—New Yorker.

AN ORDINANCE

To Prescribe the Design and Provide for the Execution of the Public Utility Bonds of the City of Gainesville.

Whereas, under and by virtue of the provisions of an ordinance entitled "An Ordinance Providing for the Issuance of Bonds and the Creation of an Executive Board under the Provisions of an Act of the Legislature of the State of Florida, entitled, 'An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers,'" approved 5th September, A. D. 1905, an election was held in the said City of Gainesville, Florida, on the 10th day of October, 1905, to determine whether or not the issuance of bonds provided by said ordinance should be at that time approved by a majority of the votes cast by the qualified electors of said city at said election; and,

Whereas, said ordinance was published in The Gainesville Sun, in full, a newspaper printed in said city, for four consecutive weeks, once each of said weeks, the beginning of such publication being made immediately upon the adoption and approval of said ordinance; and,

Whereas, along with the publication of said ordinance, there was published therewith at the same time, in the same newspaper, at least once each week for four consecutive weeks, the beginning of which publication was made immediately upon the adoption and approval of said ordinance, the Mayor's proclamation calling said election provided for in said ordinance; and,

Whereas, in and by said ordinance the issuance of bonds to the amount of One Hundred Fifteen Thousand Dollars is provided for, and the purpose for which such issue of bonds are to be used is expressed in general terms; and,

Whereas at said election so held on the 10th day of October, 1905, the issuance of said bonds for the purposes mentioned in said ordinance, provided for, was approved by a majority of the votes cast by the qualified electors of said city at said election; now, Therefore,

BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF GAINESVILLE, FLORIDA:

Section 1—That the Mayor and Chairmon of the Finance Committee of the City Council shall have engraved or printed five per cent coupon bonds of the City of Gainesville, to be known as "Public Utility Bonds of the City of Gainesville," to the amount of One Hundred Fifteen Thousand Dollars, and of the denomination of One Thousand Dollars each, dated the 1st day of January, A. D. 1906, bearing interest at the rate of five per cent per annum, payable semi-annually, at the end of periods of six months from the date of the bond, the principal and interest to be paid in gold coin of the United States of the present standard of weight and fineness, the bonds and the interest thereon to be payable at the office of the City Treasurer of said city; said bonds to become due and payable as follows, viz: Thirty-five of said bonds to become due and payable in fifteen years from the date thereof, forty of said bonds to become due and payable in twenty-five years from the date thereof, and forty of said bonds to become due and payable in thirty five years from the date thereof. Said bonds shall be signed by the Mayor, countersigned by the President of the City Council, attested by the City Clerk, and shall bear the corporate seal of said city, and shall have the interest coupons attached bearing an engraved or printed fac-simile of the signature of the City Treasurer. When said bonds shall have been executed and signed as herein provided they shall be at once turned over by the Chairman of the Finance Committee to the Board of Public Works.

Sec. 2—Said bonds and the coupons attached shall be in the following words and figures, the blanks left for the number, and the date upon which the bond may become due and payable to be filled in as the number and date of the bond to become due and payable may render necessary:

UNITED STATES OF AMERICA.
STATE OF FLORIDA.

No.	DEVICE	$1,000.00
Secured by pledge of the entire taxable property of and public utilities acquired and owned by said City.	CITY OF GAINESVILLE. PUBLIC UTILITY BOND. INTEREST FIVE PER CENT PER ANNUM. PAYABLE SEMI-ANNUALLY.	Secured by pledge of the entire taxable property of and public utilities acquired and owned by said City.

The City of Gainesville, in the State of Florida, will pay on the .....day of....., A. D....., to bearer the sum of One Thousand Dollars, in gold coin of the United States of the present standard of weight and fineness, at the office of the City Treasurer in the said City of Gainesville, with interest thereon at the rate of five per cent per annum, payable semi-annually, in like gold coin at office of said City Treasurer, on presentation and surrender of the annexed interest coupons as they severally become due and payable.

This bond is one of a series aggregating One Hundred Fifteen Thousand Dollars, of like date, known as "Public Utility Bonds of the City of Gainesville," issued under and in accordance with the provisions of an Act of the Legislature of the State of Florida, entitled "An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers," approved May 9th, 1905, and of an ordinance of said City of Gainesville, entitled "An Ordinance Providing for the Issuance of Bonds and the Creation of an Executive Board Under the Provisions of an Act of the Legislature of the State of Florida, Entitled 'An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers,'" approved 5th September, 1905, and published once each week for four consecutive weeks in a newspaper printed in said city, the beginning of such publication being made immediately upon its adoption and approval, which ordinance and the issuance of which bonds were approved by a majority of the votes cast by the qualified electors of said city, at a special bond election duly called and held under the provisions of said Act and ordinance on the 10th day of October, 1905.

It is hereby certified that the issue of bonds, of which this is one, is made in strict conformity with the Laws of the State of Florida and the said ordinance of the City of Gainesville duly authorizing the same, and that all proceedings and things essential to the validity of this bond have duly happened and been performed, and all requirements of laws and ordinances have been fully complied with by the proper officers in the issuance of this bond.

In testimony whereof the City of Gainesville has issued this bond, bearing date the 1st day of January, 1906, and has caused it to be signed by the Mayor, countersigned by the President of the City Council and attested by the City Clerk of said city under the seal of the corporation.

ROYAL Baking Powder

Absolutely Pure

A GRAPE CREAM OF TARTAR BAKING POWDER

It makes the most delicious and healthful hot breads, biscuit and cake

FREE FROM ALUM, LIME OR PHOSPHATIC ACID

★ ★ ★ ★ ★ ★ ★ ★ ★

Alum baking powders are unhealthful. Do not use them for raising food under any circumstances. So detrimental are alum baking powders considered, that in most foreign countries their sale is prohibited. In many States in this country the law compels alum powders to be branded to show that they contain this dangerous acid, while in the District of Columbia, Congress has prohibited the sale of all food that contains alum.

Alum baking powders are sold to consumers at from 10 cents a pound to 25 ounces for 25 cents, or 25 cents a pound, and when not branded may generally be distinguished by their price.

MORE ROOM WANTED.

It Is An Absolute Necessity That Our School Have It.

"We are just crowded to death, almost, in our high school rooms," said Prof. T. F. McBeath to a Sun emissary yesterday evening, "and we ought to have more room to handle the hundred and twenty to thirty students in our high school."

This has been repeatedly mentioned about our over-crowded schools, and as the number of students seem to increase every week it is necessary that some action be taken. It has been suggested that the Academic building of the East Florida Seminary be secured, and that it be made a high school building, and that the grades remain in the regular building.

At the present time there is no place for holding examinations, except in the Auditorium, which is not provided with desks for that purpose. Surely we should have room according to our size.

PARK THEATER COMPANY.

Fine Bill Last Night—Fanchon, the Cricket, Tonight.

A very fair-sized audience was present last night to witness the presentation of "Human Hearts" by this excellent company. The cast is a strong one and the stage settings were good. The piece gave the best of satisfaction.

Tonight will be presented "Fanchon, the Cricket," with Lillian Tucker in the title role, and her famous "shadaw dance" has won much praise wherever she has appeared. Gabriella McKean as Mother Fadet, the witch, and F. G. Campbell as Father Barbeau and a clever cast throughout will go to make this one of the most pleasing performances of the engagement. This is the comedy made famous by Maggie Mitchell. Don't miss it.
